Executive Summary

The California Voter's Choice Act (VCA), or Senate Bill (SB) 450 (Allen, D-26) was signed into law on September 29, 2016, adding Section 4005 to the California Elections Code, allowing authorized counties, upon approval of their Board of Supervisors, to conduct any election by mail, with certain requirements. Under VCA, all voters are mailed a ballot commencing 29 days before the election, and each county establishes, with public input, numerous ballot drop box locations and vote centers throughout the county where any county voter may cast their ballot. This legislation is one of many election reforms designed to change how elections are conducted in order to increase voter participation and voter engagement by expanding voting options.

The County of San Diego Board of Supervisors approved the county's transition to a vote center model under the Voters Choice Act on [October 19, 2021 \(news story\)](#). The San Diego County Registrar of Voters immediately created internal working groups to develop processes for operating and conducting elections under the vote center model.

A great deal of planning along with the purchase of required technology and equipment had already been accomplished as a result of administering both the November 3, 2020, Presidential General Election and the September 14, 2021, California gubernatorial Recall Election under a "VCA-like" model due to the global pandemic.

In addition to the work already accomplished by the Registrar's office, we have incorporated feedback provided by voters and community advisory committees such as the Language Accessibility Advisory Committee (LAAC), and Voter Accessibility Advisory Committee (VAAC). We are also thankful for the support and guidance provided by the Secretary of State's office and the counties who have transitioned before us.

You can learn more about joining the county's LAAC and VAAC on the Registrar's website at [Language Accessibility Advisory Committee \(sdvote.com\)](#) and [Voter Accessibility Advisory Committee \(sdvote.com\)](#).

The Election Administration Plan (EAP) provides the foundation and guiding outline for the future of voting and elections in San Diego County. We have updated our website and created an educational brochure to inform the public about the Voter's Choice Act. The website can be found at [Voter's Choice Act \(sdvote.com\)](#) and a sample of the brochure can be found on page 122.

Following the finalization of the EAP, the Registrar's office implemented a comprehensive Voter Education and Outreach Plan that has expanded our social media presence, as well as our partnerships with high schools and institutions of higher education, collaborations with government agencies and community organizations. Additionally, we have added a variety of voter education workshops to each election schedule. This plan has provided the framework for the Registrar's office to meet its goal of informing San Diego County's over 1.9 million registered voters of the County's transition to the vote center model.

The 2023-2027 EAP has been updated to reflect election operations after conducting some statewide and local elections under the vote center model and it incorporates further feedback from the public.

At the time of updating this EAP, San Diego County would have a minimum of 193 vote centers, all would be open for four days, including election day, with 39 of the 193 vote centers being open an additional seven days for a total of 11 days and a minimum of 129 mail ballot drop box locations open for nearly a month. Voters may return their vote-by-mail ballot by mail (no postage required), at a ballot drop box location, or at any vote center.

My staff and I remain committed to our mission of providing election services to the citizens of San Diego County with the highest level of professional election standards, including accountability, security, and integrity, while ensuring equal access to the voting process, protecting the integrity of votes, and maintaining a transparent, accurate and fair process.

Cynthia Paes
Registrar of Voters
San Diego County

Vote-By-Mail Ballots

§4005(a)(8)(A)

The implementation of the Voter's Choice Act (VCA) in San Diego County requires that every one of its over 1.9 million active registered voters receive a ballot in the mail. San Diego County has proven that it is well positioned to handle the volume of the printing, mailing, and processing of mail ballots resulting from this obligation. This requirement supports current voter behavior and projected trends, which the San Diego County Registrar of Voter's office has already taken into consideration.

Further, for all future elections, all voters will now receive a ballot in the mail regardless of preference or voting model, pursuant to Assembly Bill 37 (Berman).

Background

In the March 2020 presidential primary election, the Registrar's office issued nearly 1.4 million mail ballots to voters who specifically requested to receive their ballots by mail, approximately 75% of the county's total registered voters. The number of voters who request to receive ballots by mail has been steadily increasing for the better part of two decades. With such a large percentage who prefer voting by mail over the years, the Registrar's office has matured its processes, increased capacity and is more than prepared to manage the processing of mail ballots accurately and securely.

This preparation proved successful while administering the November 2020 presidential general election. As a result of the COVID-19 global pandemic, the Governor's two Executive Orders (N-64-20 and N-67-20), and related legislation (Assembly Bill 860 - Berman and Senate Bill 423 - Umberg) permitting the Registrar of Voters to conduct the presidential general election under a "VCA-like" voting model, the Registrar's office mailed over 1.96 million ballots to all active registered voters in the county and made available 235 in-person voting sites open for four days, and 125 mail ballot drop-off locations open for nearly a month.

The Registrar again operated under a "VCA-like" model for the September 14, 2021, California Gubernatorial Recall Election. Over 1.96 million ballots were mailed to the county's active registered voters, 131 mail ballot drop-off locations were open for nearly a month and 221 in-person voting sites were open for four days of in-person voting.

The June 2022 primary was the first countywide election conducted under the vote center model with 93% (629,276) of voters participating in the election returning their mail ballot and 7% (45,332) voting in-person at a vote center. As with past elections this data is keeping with the trend in San Diego County of voters preferring the convenience of vote by mail.

The trend continued with the November 2022 general election where again, over 1.9 million ballots were mailed out to every active registered voter in in the county. In the general election 90% (939,102) of voters participating returned their mail ballot and 10% (104,388) voted in-person at a vote center.

Ballot Printing & Mailing Preparation

The Registrar's office has a state certified vendor who can handle the vote by mail ballot printing and mailing capacity. The office has also maintained a long-term and strong partnership with its local United States Postal Services office to ensure timely delivery and return of mail ballots.

The vote by mail packet is sent to voters in a white envelope labeled with the Official Election Mail logo and contains the following:

- A yellow return envelope
- The official ballot, which may be on multiple ballot cards depending on how many contests are in the election
- Instructions on how to complete and return the ballot
- The closest ballot drop box location along with directions to the complete lists and hours of operation at sdvote.com
- An "I Voted" sticker

Processing Returned Mail Ballots

The Registrar's office has invested over the years to manage backend processing of mail ballots. The office currently operates its own high-speed mail sorting machines that are used to process returned mail ballot envelopes. These sorting machines take an image of every returned envelope and track that the mail ballot envelope has been returned. The image of the signature on the returned envelope is used by staff to perform a signature comparison and determine if the signature compares with the voter's signature on file. The speed of the mail sorting equipment, its integration with the signature verification process, and the use of automated extraction machines has allowed the Registrar's office to seamlessly handle the volume of returned mail ballots.

Counting Returned Mail Ballots

The Registrar's office has eight high-capacity scanners that can scan over 10,000 ballots per hour per scanner. These were purchased in 2019 and have more than doubled scanning capacity. The office has access to an additional 40 Canon scanners that can scan over 4,000 ballots per hour per scanner and can be used when additional capacity is required during the election cycle.

Tracking Mail Ballots

The Registrar's office uses the Secretary of State's Where's My Ballot system operated through BallotTrax. This system provides additional transparency for voters on the status of their mail-in ballot. Voters can receive notifications as their security return envelope with ballot enclosed moves through the mail stream. Mail ballots are tracked using an Intelligent Mail Barcode (IMB) which the United States Postal Service uses to track when ballots are mailed and returned to the Registrar's office.

Vote Center and Ballot Drop Box Locations

§4005(a)(10)(B)

The VCA establishes detailed criteria and formulas for the placement and locations of vote centers and ballot drop box locations. Vote centers and ballot drop box locations will be decided based on specific considerations and requirements including:

- Proximity to public transportation
- Proximity to communities with historically low vote-by-mail usage
- Proximity to population centers
- Proximity to language minority communities
- Proximity to voters with disabilities
- Proximity to communities with low rates of household vehicle ownership
- Proximity to low-income communities
- Proximity to communities of eligible voters who are not registered to vote
- Proximity to geographically isolated populations (Native American reservations)
- Proximity to college campus or university
- Access to accessible and free parking
- Distance and time a voter must travel by car or public transportation
- Alternate methods for voters with disabilities
- Traffic patterns
- Mobile or pop-up vote center options

Vote Center Formula and Considerations

§4005(a)(10)(I)(vi)(I)

The VCA has established a formula for determining the number of vote centers based on the number of registered voters. Counties are instructed to provide one 11-day vote center for every 50,000 registered voters and one 4-day vote center for every 10,000 registered voters. Based on the algorithm outlined in the VCA, the required minimum is 39 vote centers open for 11 days, including Election Day, and a minimum of 193 vote centers open for four days, including Election Day, in San Diego County.

The Registrar's office will provide more 4-day vote centers than the required minimum. San Diego County will operate approximately 39 vote centers open for 11 days, including Election Day with all locations open during the last four days of voting throughout San Diego County. Vote centers have two "opening days", with greater numbers of vote centers in operation during the final four days of voting with expanded hours on Election Day.

Increasing the number of locations will enable the placement of additional vote centers in areas with specific needs and in isolated communities like Borrego Springs, Boulevard, Campo, Descanso, Rincon, and Warner Springs.

Vote Center Minimum Requirements

Vote centers have been decided based on requirements set forth in statute, the accessibility to voters with disabilities and language needs, location availability, and public feedback. The Registrar's office will use voter and population data to assist with selecting the best areas for vote centers.

The Registrar's office has identified and will continue to assess potential facilities to ensure that locations are distributed throughout San Diego County in a manner that provides greater access and convenience for all voters.

Vote Center Site Selection

VCA requires counties to consider at a minimum fourteen criteria when establishing vote centers. The Registrar's office uses the Center for Inclusive Democracy (CID) siting tool and the most current available geospatial data from SanGIS to consider all required criteria. The Registrar's office provides access to the interactive CID siting tool which allows the user to search for and evaluate any proposed location against required criteria (see Center for Inclusive Democracy Siting Tool description on page 24).

While the CID Siting Tool provides a quick and effective way to assess proposed locations against required criteria, it does not automatically define where vote center locations will be identified and confirmed.

Vote Center Survey Assessment

In addition to considering required criteria, a vote center survey assessment considers many of the other site selection elements that, while not required by the VCA, impact the vote center siting process. Some examples of these site selection elements include path of travel, size of the voting room, the presence of adequate lighting (both inside and outside), the geographic area of the proposed site, internet connectivity, and electrical capacity.

Vote Center Facility Recruitment Process

As a result of the COVID-19 global pandemic and emergency legislation the Registrar's office conducted both the November 2020 presidential general and the September 2021 gubernatorial recall elections under a "VCA-like" voting model with 221 to 235 voting locations open for four days of voting across the county. These voting locations were again reviewed and assessed to determine if they would meet minimum requirements for a vote center moving forward.

Facility Research

Based on the previous facility recruitment process prior to November 2020, a list of over 500 voting locations has been reviewed and contacted to serve as possible vote centers if initial criteria were met.

Non-public facilities were contacted for further discussion on availability and potential costs. Public facilities were contacted to schedule vote center survey assessments.

Consistent with previously used polling place research, additional public properties and facilities within the county are being evaluated as needed and added to a master list for further research. Suitable facilities, that have not served as polling places, have been contacted for vote center site assessments. Additionally, based off population data, cities have been evaluated for a targeted number of vote centers.

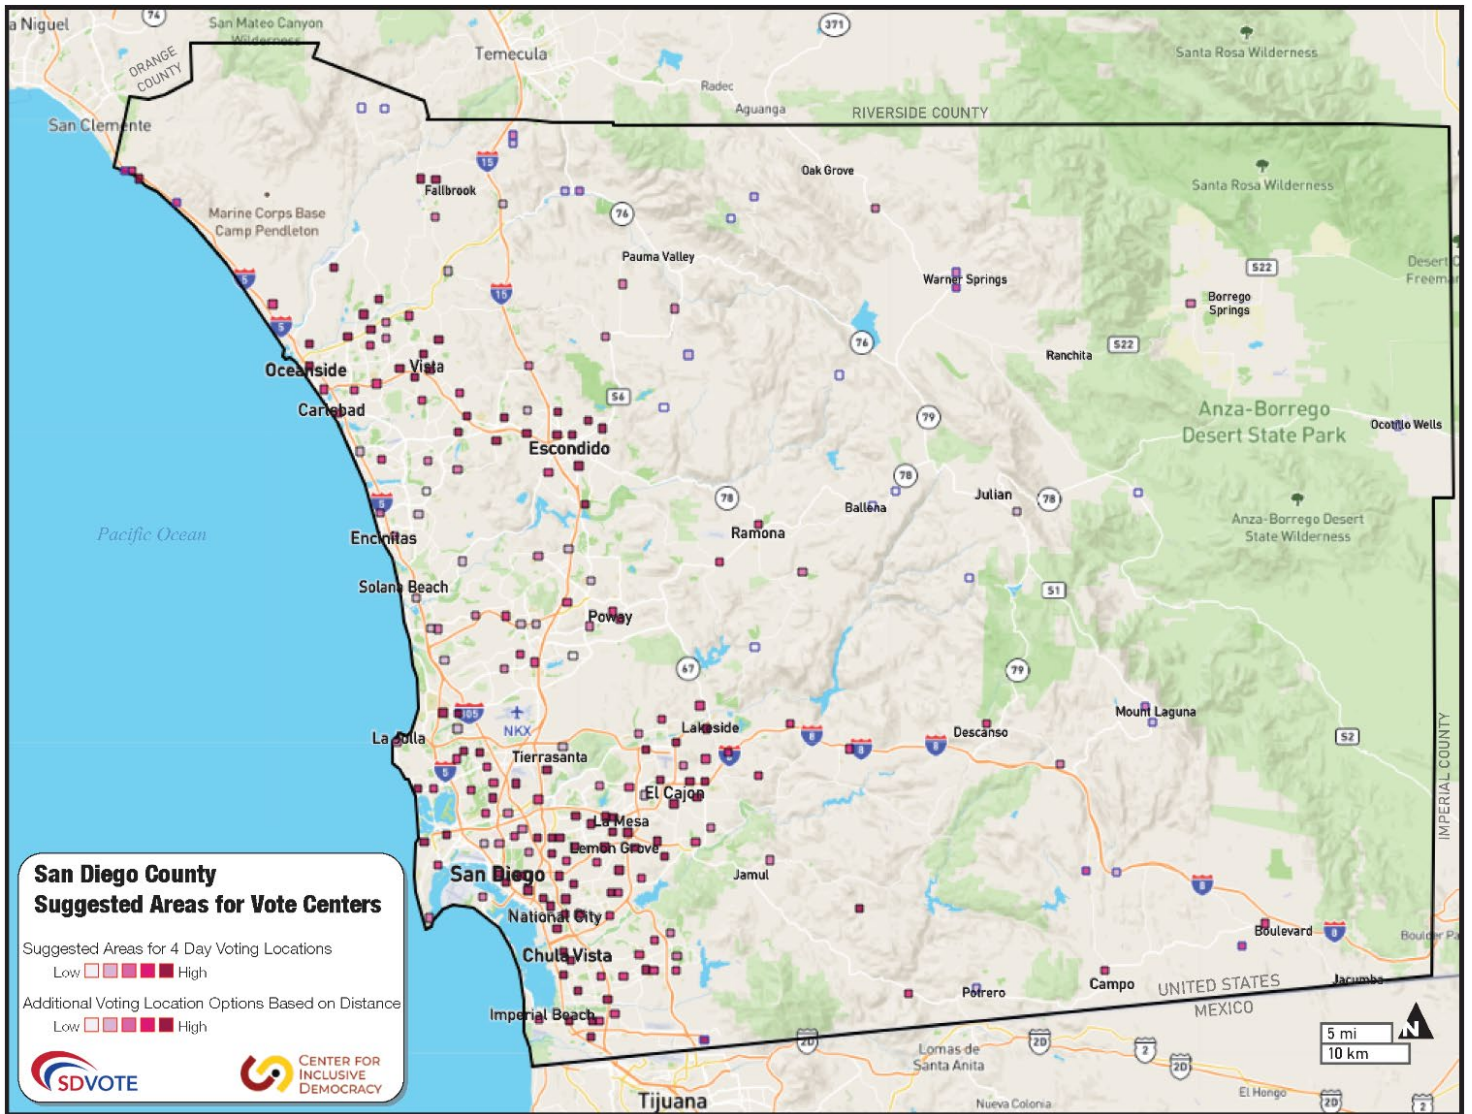

List of Potential Vote Centers with Days and Hours of Operation

§4005(a)(10)(I)(vi)(III), §4005(a)(10)(I)(vi)(VI)

Vote center locations were selected in conjunction with public feedback and the requirements as necessitated by law. The final list of selected vote centers is included in the Voter Information Pamphlet and is available on the Registrar's website, sdvote.com during each election cycle.

Starting ten days before Election Day, approximately 39 vote centers will be open for a minimum of eight hours each day. An additional ~179 vote centers will open starting at three days before Election Day for a minimum of eight hours each day until Election Day, when all vote centers are open from 7:00 a.m. to 8:00 p.m. (See page 92 for the 11-Day and 4-Day Locations Table at the time of publishing.)

Map of Suggested Areas for Vote Centers

Vote Center Layout

§4005(a)(10)(l)(vi)(XI)

Vote centers offer enhanced services and benefits that are secure and convenient. All vote centers will be equipped with a minimum of four electronic rosters (electronic pollbooks, or e-pollbooks) allowing vote center staff to verify the status and eligibility of the voter quickly and easily, and a minimum of four to eight ballot marking devices. Ballot marking devices are discussed in greater detail on page 33.

At vote centers, a voter will be able to:

- Vote in-person or drop off an already voted mail ballot (sealed inside its return envelope)
- Use a touchscreen ballot marking device to mark selections and print out an official ballot
 - All ballot marking devices are fully accessible allowing voters with disabilities to vote independently and privately
- Vote in-person using the ballot you received in the mail after checking in and signing the electronic roster
- If you made a mistake or lost the ballot you received in the mail, you can instead vote in person using a ballot marking device at any vote center
- Get language assistance
- Register to vote and vote the same day
- Update voter registration information (address, name, political party preference)

The Registrar's office implemented vote center layout guidelines to ensure all ballot marking devices and voting booths are placed in a manner that allows a voter to mark their ballot independently and privately. Layouts will be sensitive to the accessibility needs of voters and will be adjusted to accommodate the varying shapes and room sizes of each location (see page 91 in Appendices for a sample layout).

Each vote center layout incorporates five stations:

1. Mail Ballot Bag Station: Accepts mail ballot return envelopes from voters.
2. Greeter Station: Greet voters, manage any lines, provide check-in forms, clipboard, pen, and direct voters to check-in station.
3. Check-in Station: Check-in voters, conditionally register voters and provide assistance.
4. Voting Station: Voters mark their selections privately and independently with a ballot marking device or in a voting booth (marking ballot received in the mail).
5. Check-out Station: Poll worker casts ballot in official ballot box and gives voter "I Voted" sticker.

Note: Although not a “station”, the Voter Access Table is also incorporated into the vote center layout for consistent placement of voter resources provided at each vote center.

Number of Vote Center Employees

§4005(a)(10)(I)(vi)(IX)

The estimated number of vote center employees is based on the number of 11-day and 4-day vote centers, the number of check-in stations and ballot marking devices in relation to the anticipated turnout of a vote center and a schedule that supports all-day shifts. Estimates of the number of required vote center employees are calculated based on an average of six staff needed at the 11-day centers, and twelve staff during the final four days of voting at all centers. The average considers that there may be differences in the number of required staff at any given vote center.

Vote Center Type	# Sites	Staffing Type	# Days	Full-day Shifts	Projected Staff
11-Day	39	6-person staff	7 Days	39 sites x 6 staff	234
		12-person staff	4 Days	39 sites x 6 added staff	234
4-Day	179	12-person staff	4 Days	179 sites x 12 staff	2,148
Total Projected Need	218				2,616
(All numbers are estimates)					

Training of Vote Center Employees

Training of vote center employees is guided by the California Secretary of State’s Poll Worker Training Standards. The county’s Poll Worker Training Manual and other training materials can be viewed on the Registrar’s website at [Poll Workers Training \(sdvote.com\)](https://sdvote.com). This material is typically posted one month prior to Election Day.

Ballot Drop Box Location Formula and Considerations

§4005(a)(10)(I)(vi)(II)

The VCA has established a formula for determining the number of ballot drop box locations based on the number of registered voters. Counties are instructed to provide at least two locations within the jurisdiction where the election is held or at least one ballot drop box location for every 15,000 registered voters. San Diego County Registrar of Voters provides approximately 140 ballot drop box locations throughout San Diego County which is over the required minimum.

Minimum criteria has been considered and evaluated while researching potential ballot drop box locations. Ballot drop box sites provide voters with additional options to drop off their ballot securely and conveniently. Best efforts were made to identify sites with consideration of whether there is existing security camera coverage and located in different areas than vote center sites and post offices. At the time of publishing there was a combination of indoor and outdoor drop box locations.

Ballot Drop Box Minimum Requirements

§4005(a)(10)(I)(vi)(VI)

In addition to the VCA minimum requirements, the California Secretary of State's office provides regulations such as accessibility and language requirements. Stand-alone ballot drop boxes have been designed to provide the translated required language in the graphics of the ballot drop box, and the artwork was developed using high contrast to improve readability for voters with a visual impairment. The Registrar's office is assessing the feasibility of additional features to support voters with disabilities and will continue to work with community partners to research best practices for future consideration.

Ballot drop box locations, whether indoors or outdoors, were decided based on the requirements set forth in the VCA, accessibility to voters with disabilities and language needs, location availability, and public feedback.

The Registrar's office identified locations to ensure that the ballot drop boxes are distributed throughout San Diego County in a manner that provides greater access and convenience for all voters.

The Registrar's office followed the "California Code of Regulations (CCR) Title 2. Administration, Division 7, Chapter 3. Article 1. Vote by Mail Ballot Drop Boxes and Vote by Mail Drop Off Locations" guidelines which provide security measures in the design requirements of the ballot drop box, security monitoring and procedures of use during the available voting period. The design and language printed on the ballot drop boxes

informs the public that the box is official and secure. The ballot drop boxes also have preventative security such as anti-vandalism coating, fire suppression features, and are constructed from high grade, heavy gauge stainless steel with double-locking access doors, and anti-pry door jambs.

Ballot Drop Box Survey Assessment

VCA requires counties to consider at a minimum fourteen criteria when establishing ballot drop box locations. The Registrar's office uses the Center for Inclusive Democracy (CID) siting tool and the most current available geospatial data from SanGIS to consider all required criteria. The Registrar's office provides access to the interactive CID siting tool which allows the user to search for and evaluate any proposed location against required criteria (see description of Center for Inclusive Democracy Siting Tool on page 24).

While the CID Siting Tool provides a quick and effective way to assess proposed locations against required criteria, it does not automatically define the final ballot drop box locations.

Beyond the minimum requirements, additional criteria were considered in choosing the ballot drop box locations. These criteria, while not required by the VCA, impact the siting process, and improve the desirability of the location. Some examples of these site selection elements include, presence of an onsite security camera, availability of short term/temporary parking spaces for the ballot retrieval team, and the presence of adequate lighting at the proposed site.

Ballot Drop Box Location Recruitment Process

An informational packet was developed which included a ballot drop box flyer with specifications, expectations, and frequently asked questions. The packet was used for outreach to potential sites and provided detailed information about the ballot drop box process. The packet included a ballot drop box agreement so that all parties have a clear understanding of roles and obligations, and a facility use license agreement for ongoing use of current locations. This information is updated and distributed prior to recruitment of new ballot drop box locations before each election cycle.

Previous polling places and mail ballot drop off locations were reviewed to determine if the location could support a ballot drop box on site. Working concurrently with potential vote center site selections, potential ballot drop box locations have been identified that will provide additional options for voters to drop off voted ballots. In addition, research has been conducted on potential city sites, libraries, college campuses, and other publicly available locations. Well-known retail shopping centers and privately-owned

properties have also been identified. Like the vote center recruitment process, cities and areas that have the largest need for ballot drop boxes were prioritized.

Every potential site underwent a site assessment to determine suitability and accessibility.

List of Potential Ballot Drop Boxes with Days and Hours of Operation

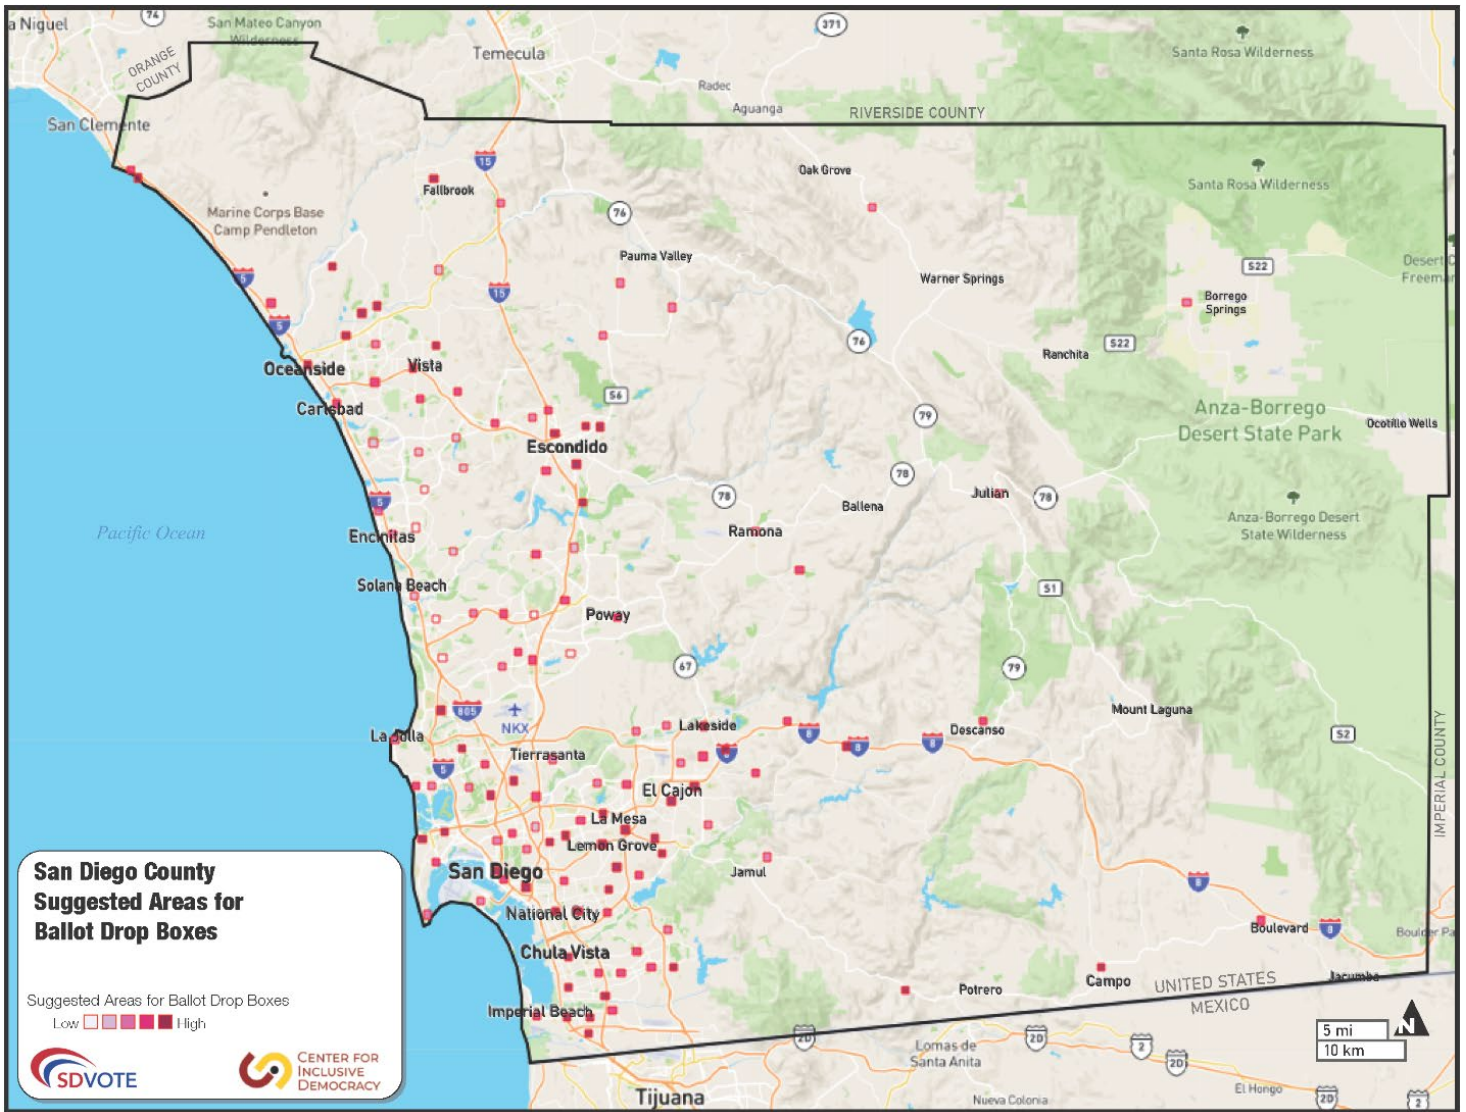

§4005(a)(10)(I)(vi)(IV), §4005(a)(10)(I)(vi)(VII)

Ballot drop box locations were selected in conjunction with public feedback and the requirements as necessitated by law. The final list of selected ballot drop box locations is included in the Voter Information Pamphlet and available on the Registrar's website at sdvote.com during each election cycle.

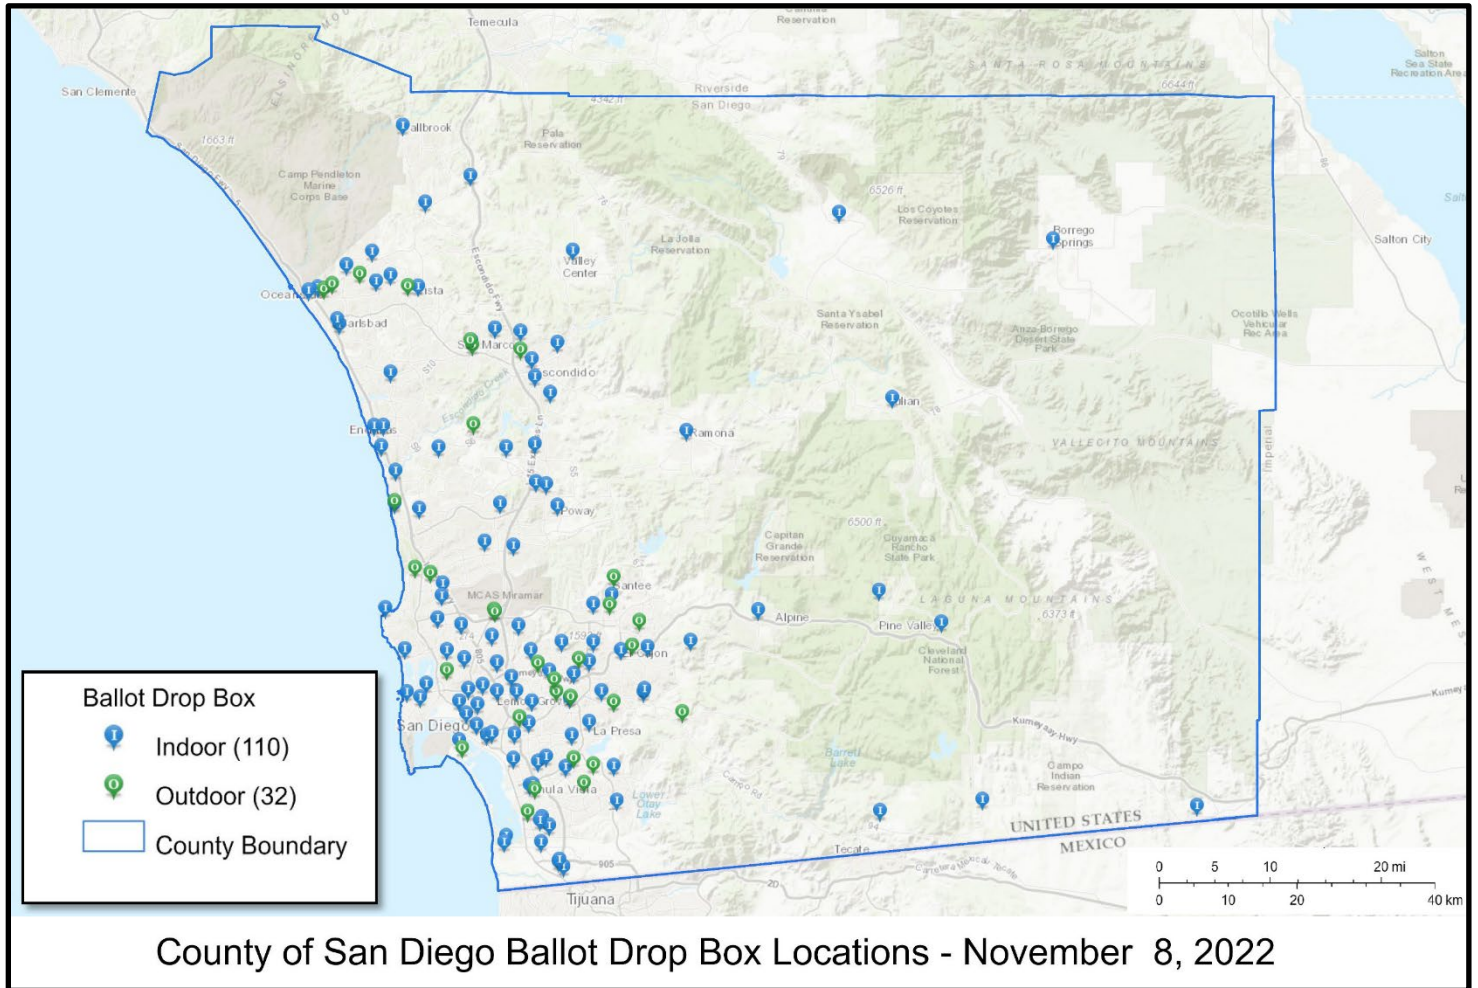

Ballot drop box locations will be open during the facilities' regular business hours for those located indoors and for those located outdoors they are available 24 hours a day, 7 days a week. All ballot drop box locations will close Election Day, at 8:00 p.m.

See page 92 in Appendices for Ballot Drop Box Locations Table at the time of publishing.

Map of Suggested Areas for Ballot Drop Box Locations

Map of Ballot Drop Box Locations at time of Publishing

Vote Centers and Ballot Drop Box Siting Tool and Methodology

To assist with selecting sites for vote centers and ballot drop box locations, the Registrar's office uses the [Center for Inclusive Democracy \(CID\) siting tool](#) and the County's Geographic Information System (GIS) technology to help identify optimal sites for potential vote centers and ballot drop box locations. This is accomplished by visualizing demographic and voter data, past polling places, parcel information, census data, and precinct information at the community level.

Utilizing the siting tool's grid, made up of half mile cells covering the entire county, "suitable areas" were identified and compared against archived polling places, voting locations and new public properties and facilities. Survey assessments were performed to determine if the locations would meet minimum required criteria and other site selection elements for a vote center or ballot drop box location.

To further assist with the process, the CID data was integrated with potential vote center and ballot drop box locations based off archived polling places, voting locations, public infrastructure, and community sites. This allows exploring existing data, proposing new sites, and tracking progress of site selection process to make informed decisions.

Methodology

Using the CID siting tool, site selection elements, and GIS technology, the San Diego County Registrar of Voters identified locations for all "suitable areas" in the County to host vote centers and ballot drop box locations.

Site Selection Suggestion Form on Website

Another way vote center and ballot drop box locations were selected for assessment is public feedback received through the Site Suggestion Form on sdvote.com. This allowed the public to provide a facility name, address, and a reason for suggesting a location. The Registrar's office continues to follow up on feedback related to vote centers and ballot drop box locations.

Services for Voters with Disabilities

§4005(a)(10)(I)(vi)(X)

The San Diego County Registrar of Voters is committed to supporting voters with disabilities. The Registrar's office continues to expand and update services for voters with disabilities through a collaborative process of community and advisory committee input and by using an updated comprehensive accessibility survey.

The Registrar's office supports voters with disabilities by:

- Ensuring all vote centers meet usable accessibility requirements
- Using ballot marking devices with current accessibility supported technology (discussed in greater detail on page 33).
- Providing curbside voting at vote centers
- Providing the ability to cast a ballot independently from home through the county's remote accessible vote by mail (RAVBM) system
- Providing audio and large print versions of voting materials
- Providing virtual ASL interpretation at vote centers
- Providing a Voter Access Table at vote centers with language materials and resources

Updated Accessibility Survey

§4005(a)(4)(C)

To comply with accessibility requirements, the Secretary of State Accessibility Checklist was reviewed, and additional requirements were added to the Registrar of Voter's Polling Place Survey to create the San Diego County Registrar of Voters Vote Center Survey.

The updated version focuses on a more in-depth examination of paths of travel from public transportation, seeking sites with a maximum number of accessible parking spaces, and additional questions to differentiate between types of curb ramps.

The past survey was also reviewed to ensure that all questions on the current survey follow the Secretary of State Accessibility Checklist and the requirements in the VCA. The format of the Vote Center Survey was also updated from previous paper versions and outdated electronic versions to an application-based program that can be used on a mobile electronic device.

Information for Services for Voters with Disabilities included in Voter Information Pamphlet and VBM Instructions

§4005(a)(8)(B)(i)(IV)

The Voter Information Pamphlet includes information on how voters with disabilities can request assistance, Disability Rights California's Voting Hotline phone number, and how to contact the Registrar of Voter's office for any general questions. Additionally, the pamphlet specifies that a voter unable to mark a ballot may bring up to two individuals to assist with voting. The pamphlet also includes a postcard with prepaid postage for voters to request a remote accessible vote by mail ballot (RAVBM).

The mail ballot instructions inform voters of the availability of requesting election materials in an accessible format.

Accessible Information Posted to Website

§4005(a)(10)(I)(i)(IV), §4005(a)(8)(B)(ii)

The Registrar of Voter's website provides information to all voters in an accessible format. Special attention has been given to the design of the website to facilitate compatibility with screen readers and easy navigation.

The website provides voters with information relating to the election process, registering to vote, VCA legislation, and the Election Administration Plan (EAP). The website also has a dedicated [Accessible Voting \(sdvote.com\)](https://sdvote.com) webpage that provides information about services available to voters with disabilities, including:

- Vote center and ballot drop box accessibility
- Ballot marking device description and instructions
- Resources for voters with disabilities
- Requesting a remote accessible vote by mail ballot (RAVBM)

The website includes information on the types of services available to voters with disabilities, what services can be accessed at vote centers, and more. It also includes a list of vote centers and ballot drop boxes in an accessible format for each election.

How a Voter with Disabilities may request a Mail Ballot, RAVBM, or Replacement Ballot

§4005(a)(5), §4005(a)(10)(I)(ii)

With the move to vote centers, a person with a disability can request a mail ballot, RAVBM, or replacement ballot via the website, through email, over the phone, in written

form, or in person at the Registrar's office. A voter may also request RAVBM through the postage-paid postcard included in every Voter Information Pamphlet. In addition to these options, voters will also be able to request a replacement ballot and vote in-person at any vote center.

Remote Accessible Vote-By-Mail (RAVBM)

§4005(a)(8)(B)(i)(IV)

San Diego County registered voters with disabilities may request a downloadable ballot by connecting to the Registrar's remote accessible vote-by-mail (RAVBM) system. RAVBM provides voters with disabilities the ability to request access to a mail ballot electronically. The ballot can be downloaded to the voter's computer, marked using the voter's own assistive technology and then printed. Instructions are provided in the RAVBM system.

As with any mail ballot, RAVBM ballots must be sealed inside a return envelope as provided in the system's instructions, signed, and returned by mail or at any vote center or official ballot drop box location.

Return instructions are also available in the voter information pamphlet sent to every voter's mailing or email address.

Type and Number of Accessible Ballot Marking Devices

§4005(a)(2)(B), §4005(a)(4)(D), §4005(a)(10)(l)(vi)(X)

All San Diego County vote centers are equipped with a minimum of four to eight fully accessible ballot marking devices and may expand the number of devices dependent on the voting room size and voter needs. All voters are offered the use of these accessible ballot marking devices.

A voter can mark their ballot using the touchscreen display, audio tactile device, or their own assistive technology. The ballot marking devices provide voters with disabilities an autonomous voting experience. Ballot marking devices will be arranged to allow all voters the opportunity to cast their ballot privately and independently. Ballot marking devices are discussed in greater detail on page 33.

Type and Number of Reasonable Modifications at Vote Centers

§4005(a)(6)(D), §4005(a)(10)(l)(vi)(X)

There are multiple types of reasonable modifications offered inside vote centers. A minimum standard of four to eight accessible ballot marking devices, and physical modifications will be in place to support voters with disabilities.

Magnifiers and signature guides are available and prominently displayed at each check-in station. Chairs are available if needed at check-in stations and at the accessible voting units. If a voter needs additional assistance, vote center employees will be available to assist a voter as a visual guide through the voting room, or to read out any information.

In addition to the modifications mentioned above, each vote center is surveyed for accessibility. If needed, facilities may be provided with threshold ramps for short rises to enter rooms, cones to identify hazards, and mats to cover slipping hazards. Most facilities are asked to leave doors to the voting room open for accessibility.

Each vote center has signs with a phone number a voter may call to request curbside voting assistance without entering the vote center.

Mobile Voting

The Registrar's office will continue to seek opportunities and funding to bring mobile voting to voters in unique locations and geographic areas where voters might otherwise have limited access to in-person voting options. Staff are researching the optimal approach for providing these services such as considering the use of a "pop-up" type vote center location or a self-contained mobile unit.

The Registrar's office thoroughly researched and inspected the County of San Diego "Live Well" bus as a possible solution, but it lacked the required space and electrical power needed to stand up a vote center.

As the Registrar's office planned the 2022 primary and general election cycles, staff concentrated on providing more than the minimum number of 4-day vote center locations across the county to best meet unique community needs. The Registrar's office provided 26 more 4-day voter centers over the county's required minimum. The same consideration will be given to future election cycles with the addition of providing "pop-up" type vote centers at targeted locations for short periods of time.

Toll-Free Voter Phone Line

§4005(a)(10)(I)(vii)

Voters may call a toll-free voter phone line to ask questions and receive voting and election-related information. The toll-free phone number is (800) 696-0136 and it is published on the Registrar of Voters website and provided in media outreach and direct voter contact information including the Voter Information Pamphlet.

Voters who are deaf, hard of hearing, or speech-disabled may use the California Relay Service (CRS) by dialing 711 to use the telephone system via a text telephone (TTY) or other device to call the Registrar of Voter's office toll-free voter phone number. CRS supports the following modes of communication: TTY, VCO, 2LVCO, HCO, STS, VASTS, ASCII, or Voice.

Video Conferencing

Video conferencing is available in American Sign Language (ASL) to supplement in-person services for voters who are deaf.

Language Assistance Services

The Registrar of Voter's office provides comprehensive language assistance services to voters. From having dedicated bilingual staff prepare culturally appropriate translations and maintaining an extensive event calendar, the Registrar's office is committed to providing numerous opportunities for language communities to learn about the vote center model and voting options.

The Registrar's office has full-time bilingual employees overseeing each of the county's federally covered languages and during each countywide election cycle we make every effort to recruit and hire bilingual seasonal employees in each of the county's state and local covered languages.

The Registrar's office goes above and beyond what is required by state and federal law by utilizing the county's interpreter service where appropriate.

Translated Reference Ballots and Language Assistance

§13400

Per California Elections Code §14201, the Registrar's office is required to provide translated reference ballots for targeted precincts and information indicating that translated reference ballots are available for targeted precincts. The Registrar's office provides a complete set of translated reference ballots for targeted precincts at every vote center. Additionally, the Registrar's office mails or emails facsimile copies of the ballot in the voter's preferred language for targeted precincts.

Voter access cards are provided at all vote centers. This card lists the availability of translated reference ballots and all language services available.

Language Assistance Services included in Voter Information Pamphlets or Mail Ballot Instructions and Website

§4005(a)(8)(B)

Voters are notified of their ability to request translated election materials and language assistance services in the Voter Information Pamphlet and mail ballot instructions.

The Registrar's website provides the complete list of language assistance services. This information can be found here: [Language Assistance \(sdvote.com\)](https://sdvote.com).

Bilingual Vote Center Staffing and Supported Languages

§4005(a)(10)(I)(vi)(IX)

The Registrar's office determines which vote centers are located in or adjacent to a precinct that meets language requirements under the federal Voting Rights Act (VRA) for in-person language assistance. In addition, the Registrar's office will solicit public input regarding which vote centers should be staffed by individuals who are fluent in specific languages, pursuant to subdivision (c) of §12303 and §203 of the federal Voting Rights Act. Every effort will be made to recruit and assign bilingual vote center staff to these vote centers.

Voters also have alternate options to receive effective in-language assistance such as translated written materials, and interpreter assistance over a telephone call.

The Registrar's office will continue to collaborate with the community to provide Somali and Persian speaking bilingual staff at targeted vote centers which is above and beyond what is required by state and federal law.

Toll-Free Voter Phone Line and Voter Call Center

§4005(a)(10)(I)(vii), §4005(a)(10)(I)(i)(I)

Leading up to Election Day, the Registrar's office operates a call center that is staffed with bilingual operators and utilizes an interpreter call-in service to assist voters (in-language) with questions before, during, and after an election. The toll-free call center number is (800) 696-0136.

The toll-free phone number is published on the Registrar's office website, public service announcements, marketing materials, and provided in media outreach and direct voter contact information including the Voter Information Pamphlet. There is one toll-free number to serve the public, including language communities.

Voting Technology

Electronic Roster of Voters (E-pollbooks)

Electronic pollbooks (e-pollbooks) replaced paper rosters and provide a mechanism to ensure efficient and secure processing of eligible voters at any vote center location. These e-pollbooks contain an electronic list of registered voters (Roster of Voters) that are used at vote centers. The Roster of Voters is the official list of all registered voters eligible to vote in the election. E-pollbooks may be used to verify voter registration data, including name, address, date of birth, preferred language, party preference, precinct, and vote-by-mail status. However, e-pollbooks never store driver's license number, or any reference to a social security number. They provide better searching and more up-to-date voter status information than a paper roster, creating a better voting experience for voters.

The e-pollbooks exchange voter status updates with the voter registration system in a protected, encrypted way, which enables the staff at the vote center to better verify a voter's eligibility to receive a ballot and prevent double voting. The registration system shares that information through its connection to the VoteCal system. VoteCal is the centralized statewide voter registration database that interacts and exchanges information with county registration database and other state systems such as Department of Corrections and Rehabilitation, Department of Public Health, and the Department of Motor Vehicles.

Voting System

The Registrar of Voters follows strict chain of custody requirements for voting system software and hardware throughout the testing, certification, and operating process. As part of the certification process, San Diego County's voting system went through rigorous functional and security testing conducted by the Secretary of State's office and a certified voting system test lab in order to ensure the system's compliance with California and federal laws, including the California Voting System Standards (CVSS) which are the strictest in the nation. The county's certified voting system software and hardware is used in an environment where chain of custody and software integrity is strictly controlled.

Security is built into every aspect of county's voting technology. As part of the rigorous voting technology certification process, an independent third-party testing authority conducted source code review and evaluation, hardware and software security penetration testing, and operational testing to validate system performance and functioning under normal and abnormal conditions. This was done to identify any

vulnerabilities in the code requiring voting system vendors to resolve or mitigate prior to certification to essentially prevent any issues with the county's elections.

The Registrar's office strict chain of custody requirements, including personnel requirements, protects the source code from breaches and the post-election reviews and audits establish compliance between voted ballots and the voting system.

In addition, the county's voting system is paper based, meaning the Registrar's office has a paper ballot trail for every vote cast.

Ballot Marking Device (BMD)

Every vote center will have a minimum of four to eight touchscreen ballot marking devices that will print out an official paper ballot with the voter's choices that they can review before their ballot is placed in the official ballot box to be counted at the Registrar's office.

Voters visiting these locations to cast their ballot in person will mark their ballot using the device. This device does not store, tabulate, or count any votes and it does not store any voter information. The ballot marking device does not connect to the internet nor other devices in the vote center.

There is a reason why these devices are called ballot marking devices. The voter marks their selection on the screen. Then, on the paired printer the voter will print out their official ballot with their selections. This official paper ballot is what goes inside the official ballot box to be tabulated at the Registrar of Voter's office.

The ballot marking devices are fully compliant with the Americans with Disabilities Act. Accessibility features include a touchscreen; a handheld controller with a scrolling wheel and a "select" button; options to change text size and color contrast on the screen; headphones for listening to an audio version of the ballot and audio instructions for navigating and marking the ballot electronically; and ports for connecting tactile buttons or a voter's sip-and-puff device. In addition to English, voters can select a translated ballot in one of the County's four federally covered languages: Spanish, Filipino, Vietnamese, and Chinese.

Vote center staff will start a voter's session by activating the device. Voters choose the language and make their selections by touching the screen next to voting choices. Voters can review their choices and make corrections if necessary on-screen, then tap "print ballot" to print out their official ballot. After reviewing their selections, voters can place their ballots in the secrecy sleeve or envelope given to them by vote center staff and return it to the vote center staff to place it in the official ballot box.

Instructional videos are available at sdvote.com.

Voting Security

The Registrar's office aggressively pursues security measures to protect the integrity of our elections by paying attention to issues related to ballot integrity and voter registration systems. Although threats are constantly changing and incidents are unique, there are best practices and strict protocols in place to prepare for threats and incidents.

The Registrar's office continues to improve our current systems through hardware and software lifecycle management practices. The Registrar's office has implemented physical and cybersecurity controls while incorporating training for employees.

There are strict access controls in place securing the room where the voting system resides. Each room in the Registrar's office has ceiling mounted cameras directed at entry and exit areas for additional security precautions.

Security and Contingency Plans to Ensure Prevention of Disruption

§4005(a)(10)(I)(vi)(VIII)(ia)

The Registrar's office has a multi-pronged approach to ensure prevention of disruption to election operations through partnerships, internal controls, and procedures.

State, Federal, and Local Partnerships

The Registrar's office has developed a relationship with the San Diego County Chief Technology Office (CTO) and the current Information Technology Outsourcer (ITO) – who manages the county's IT network. The Registrar's office also has a direct relationship with the California Secretary of State, Department of Homeland Security (DHS), Federal Bureau of Investigation (FBI) and the Election Assistance Commission (EAC).

There is increased collaboration around election cycles before and after the election. The Registrar's office enhances security awareness and communication, including regular meetings with the County's CTO, ITO, Sheriff, DHS, and the FBI.

Internal Controls

From a technical perspective, the Registrar's office includes a multi-layered approach to ensure the data remains encrypted and secured at all times. Physical security is also a consideration when choosing a location to host a vote center. Only facilities that provide adequate physical security will be chosen.

Mobile device management allows total control of securing and enforcing policies related to e-pollbook tablets. Mobile device management allows for the ability to

remotely wipe a device, use password enforcement, and enable software updates as needed.

Every vote center will have a smartphone for notification in the event of an emergency. Vote center staff receive training and instructions in their training manual on what procedures to follow should there be an emergency. Voting equipment will have battery back-up in the event there is a loss of power.

Procedures, Methods, and Standards

Chain of custody procedures are used as an administrative control as part of the overall strategy to secure election operations. The chain of custody procedures ensures that physical tracking of voting system equipment is in place.

Voting system components are secured within a secure location until deployed for the election. Ballot marking devices are placed in numerically sealed transportation containers. All voting equipment is tracked with RFID labels when deployed and returned to the Registrar's office.

Election workers sign chain of custody documents, known as seal verification logs, for voting equipment at distribution locations. Election workers and vote center staff are required to check the security seals periodically and report any broken seals or suspicious activity. Voting equipment is inventoried and placed in a secured location.

Security and Contingency Plans to Ensure Continuation of Election in Event of Disruption

§4005(a)(10)(I)(vi)(VIII)(ib)

The Registrar's office has a continuity of operations plan in place to mitigate or prevent disruptions in the elections process; however, it is equally important to be prepared to respond to the real possibility of an incident or disruption. This section outlines the steps taken to be prepared to continue elections operations in the event of a disruption.

Vote Center Response During the Voting Period

During the voting period, election support personnel are located throughout San Diego County, ready to respond to any incident. These field personnel have replacement voting equipment and supplies and are trained to handle technical issues. Vote center employees have emergency contact information, including a dedicated helpdesk that can quickly resolve issues, or dispatch a member of the support team in the field.

All vote center equipment functions independently. If one piece of equipment stops functioning, it does not impact the operation of other voting equipment.

Continuity of Operations Plan

The Registrar's office has an in-depth plan that can be used in the event of a cybersecurity incident or outage. This plan provides a systematic way to identify, address and recover from an incident.

Essential functions and their associated information technology dependencies have been identified to ensure ongoing elections operations in the event of a disruption. It provides a framework for determining critical business processes and enabling the organization to survive the loss of part or all operational capabilities.

Delegations of authority have been set to avoid misinformation and manage the dissemination of information to voters, staff, and media during a disruption, as well as make policy determinations and decisions for functional areas of the department as appropriate.

Methods and Standards

§4005(a)(10)(I)(iv)

The purpose of the continuity plan is to allow election operations to continue in the event of a disaster, an incident, or a service disruption. By identifying the procedures for essential functions, processes, communications, and alternate facilities, most foreseeable disruptions to elections operations can be mitigated.

Essential Functions

The continuity plan identifies all essential functions required to run an election. Each of these essential functions are analyzed, and the technical dependencies for each are determined. For each of the technical dependencies, a recovery strategy is defined, including the restoration of required data.

Communications

The continuity plan also addresses modes of communication, and how communication can continue during a disruption. This includes alternate modes of communication in the event the primary system fails. Responsibilities are assigned for disseminating information, and key stakeholders with whom it will be required to communicate in the event of a disruption. The process that is disrupted determines with whom the communication needs to occur. For example, some disruptions will require communication to only vote center staff, while other disruptions may require communication to the media and general public.

Alternate Facilities

Alternate facilities are designated for local disasters, such as fires, floods, or other situations that would not allow access to our main facilities.

For vote centers affected by a disaster or power outage, voting activities can be relocated to another part of the facility. Ballot marking devices and e-pollbooks have battery backup and could be moved outside for temporary use due to a short-term loss of indoor access. If voting activities cannot continue, then nearby locations will be contacted, and voters will be provided guidance on where to go. Signage will be posted at any affected locations and information related to the relocation will be disseminated through local media outlets.

Fiscal Impact

Estimates of Short-Term and Long-Term Savings

§4005(a)(10)(I)(v)

The following tables show a breakdown of the one-time and ongoing costs and savings associated with conducting elections pursuant to the Voter's Choice Act. The Registrar's office has invested in its voting system, matured its processes, and increased its capacity over the years to manage a large percentage of voters who prefer voting by mail and is well positioned to manage the processing of mail ballots accurately and securely.

<i>The fiscal year runs from July 1 to June 30 of the following year.</i>					
	FY 2019-20	FY 2020-21	FY 2021-22	FY 2022-23	FY 2023-24*
Equipment Costs	<i>Jul 1, 2019 - Jun 30, 2020</i>	<i>Jul 1, 2020 - Jun 30, 2021</i>	<i>Jul 1, 2021 - Jun 30, 2022</i>	<i>Jul 1, 2022 - Jun 30, 2023</i>	<i>Jul 1, 2023 - Jun 30, 2024</i>
New Voting System	\$13,176,841		\$512,063	\$512,063	\$512,063
Electronic Roster of Voters (e-pollbooks)	\$243,740	\$1,870,488		\$272,303	\$280,000
Network Equipment		\$932,259			
Mail Ballot Extractors	\$61,231	\$301,084			\$60,000
Official Ballot Drop Boxes				\$480,284	\$259,717
TOTAL EQUIPMENT COSTS	\$13,481,812	\$3,103,831	\$512,063	\$1,264,650	\$1,111,780

*Proposed Budget

	COSTS	SAVINGS
Poll Worker Stipends (Traditional Polls Model)		\$1,150,000
Poll Site Stipends (Traditional Polls Model)		\$90,000
Wireless Connectivity (Vote Centers)	\$36,000	
Equipment Lease (Vote Centers)	\$65,000	
Rent/Lease (Vote Centers)	\$200,000	
Election Workers (Vote Centers)	\$4,000,000	
Additional Voter Outreach & Education Program under the VCA	\$1,900,000	
TOTAL	\$6,201,000	\$1,240,000

As a result of the transition to the Voter's Choice Act, the County of San Diego expects to see savings from no longer paying the nearly 10,000 poll workers a stipend to work on Election Day. However, ongoing costs are expected as a result of providing wireless connectivity for e-pollbooks (Roster of Voters) and laptops to use at all vote centers.

Poll workers are paid for several days of work since vote centers are opened multiple days. In addition, there are additional costs associated with operating vote center sites for multiple days, and additional costs for voter outreach and education as a function of VCA requirements.

The Registrar's office will continue to analyze the effects of the Voter's Choice Act on long-term costs and savings associated with conducting elections under this model.

Overview of Voter Education and Outreach Plan

§4005(a)(10)(I)(i), §4005(a)(10)(I)(i)(VI)

Background

The Registrar's office has a robust voter education and outreach program with five dedicated full-time staff along with an additional 18 to 20 seasonal staff during election cycles. Our outreach coordinators have strong and well-established relationships with community leaders and stakeholders. We are committed to cultivating new partnerships with community organizations, as well as strengthening our existing relationships with community partners.

It was challenging during the pandemic but historically we have participated in well over 300 community events and meetings each year. Through 2020 and 2021 much of this work was done virtually and with COVID-19 still looming we continued using a virtual platform as appropriate through the 2022 election cycles.

For the VCA implementation and prior to the 2022 primary and general elections, we held 14 public consultation meetings, 71 voter education workshops, and participated in 424 community events and meetings.

The Registrar's office successfully leveraged its voter engagement activities and the exposure gained through conducting the November 2020 and September 2021 statewide elections under a "Vote Center" type model. The comprehensive outreach campaigns associated with these elections only supported our efforts during the 2022 election cycles.

"VCA-like" November 2020 Presidential General Election Cycle:

During the November 2020 election cycle the Registrar's office sent two direct mailings to all registered voters informing them of the upcoming changes in the election and their voting options. We placed 165 newspaper ads across 43 different newspapers in San Diego County, including in-language newspapers.

We ran nearly 450 audio ads across 12 different radio stations, including in-language outlets, plus additional streaming ads.

In addition to traditional and digital advertising, the Registrar's office strategically utilized large outdoor posters on the exterior walls of gas stations, convenience stores, and bodegas located in underserved neighborhoods. In total, we placed posters around 45 different locations in San Diego County. We created four poster designs, each poster included English messaging and featured a language that is represented in the specific neighborhood. This tactic allows the Registrar's office to target neighborhoods where other forms of traditional media can't always reach.

Additional digital media included five email blasts, display ads, Facebook, Instagram, and Twitter ads that targeted the general market, federally covered languages, and communities of color. We also developed and aired 30 Public Services Announcements available in five languages.

This campaign delivered over 90 million impressions.

“VCA-like” September 2021 Gubernatorial Recall Election Cycle:

During the September 2021 recall election, we placed 35 newspaper ads across 28 different newspapers in San Diego County, including in-language newspapers. We placed audio ads across 12 different radio and streaming stations, including in-language outlets and ran approximately 1500 ads on traditional radio.

In addition to traditional and digital advertising, the Registrar’s office again utilized the large outdoor posters in underserved neighborhoods based on targeted zip code selections. We found this to be a successful tactic in 2020. In total, we placed posters at 65 different locations across San Diego County.

Additional digital media included two email blasts, display ads, Facebook and Twitter ads, again targeting our general market, and communities of color.

This campaign delivered over 57 million impressions.

Both campaigns informed San Diego County voters of their voting options consistent with the Voter’s Choice Act, including that all active registered voters will automatically receive a ballot in the mail nearly a month before Election Day, voters can return their ballot by mail, or at any ballot drop off or voting location, and in-person voting is available over multiple days at any one of the 200+ locations across the county.

These two statewide elections gave San Diego County quite an advantage as we now officially transition to the Voter’s Choice Act. The Registrar’s office has already gone to great lengths to prepare voters for any changes they may find in the upcoming election. The 2022 outreach efforts and media campaign continued to reenforce voting options and that now these changes voters have already experience are permanent for all future elections.

2022 Gubernatorial Election Cycles:

In support of voter education and outreach during the June 2022 primary and November 2022 general elections, we placed 175 newspaper ads across 29 different newspapers in San Diego County, including in-language newspapers. We placed audio ads across 12 different radio and streaming stations, including in-language outlets and ran approximately 1,896 ads on traditional radio.

To further inform the public of their voting options, we developed and aired 10 Public Service Announcements (15 and 30 second versions). The videos were produced in the federally covered languages and included closed captioning.

Additional digital media included nine email blasts, display ads, online video ads, Connected TV, Facebook, Instagram, and Twitter ads that targeted the general market, federally covered languages, and communities of color.

In addition to utilizing large outdoor posters on the exterior walls of gas stations, convenience stores, restaurants, and bodegas, the Registrar's office expanded outdoor advertisement efforts to include transit shelter posters and billboards. The outdoor advertisements were strategically located in underserved neighborhoods based on targeted zip code selections. In total, we placed outdoor advertisements at 247 different locations across San Diego County.

The campaigns delivered over 154.2 million impressions.

The Registrar's office will continue to participate in outreach events that have been historically attended, as well as develop creative and more effective ways of communicating to voters. This Voter Education and Outreach Plan will highlight outreach events the Registrar's office will coordinate and/or attend, outline messaging strategies that will increase our presence in the community, and detail how resources will be allocated more efficiently through the analysis of key data points.

Summary of Goals

- Voter education workshops/demonstrations
- Vote center community presentations
- Community engagement events
- Partnerships with colleges and universities
- Partnerships with high schools
- 2 – 4 direct voter contacts
- Robust multilingual, targeted media campaign
- Increased social media presence
- Position the Registrar's office as the official source of trusted election information

Community Partners

§4005(a)(10)(I)(i)(III)

Successfully maintaining a community outreach program includes maintaining established partnerships with community-based groups and organizations. The Registrar's office regularly meets with dedicated individuals from various organizations

across San Diego County including advocacy groups, civic groups, citizen leagues, senior centers, churches, city clerks, political parties, and other individuals. Community partners are listed starting on page 71 in Appendices.

[Voter Accessibility Advisory Committee & Language Accessibility Advisory Committees](#) §4005(a)(9)(A), §4005(a)(9)(B), §4005(a)(10)(l)(i)(I)

The Registrar's longstanding Voter Accessibility Advisory Committee (VAAC) and Language Accessibility Advisory Committee (LAAC) are designated to focus on the needs of voters with disabilities and minority language communities.

The mission of the LAAC is to advise and assist the Registrar's office with implementation of federal and state laws relating to access to the electoral process by voters with limited-English proficiency.

The LAAC also provides recommendations identifying and prioritizing activities and programs to ensure equal access to the ballot. The responsibilities of the committee include providing expertise on language accessibility issues; providing recommendations identifying and prioritizing activities; and responding to the office's questions regarding language support.

The mission of the VAAC is to advise and assist the Registrar's office with providing services to voters with accessibility needs and explore all opportunities to provide equal access to the ballot.

The VAAC also provides recommendations identifying and prioritizing activities and programs to ensure voters with disabilities can independently cast a ballot. The responsibilities of the committee include providing expertise on accessibility matters; incorporating accessibility procedures into operations; and providing feedback to the Registrar's office regarding accessibility standards and outreach to voters with disabilities.

VAAC meeting agendas and a list of members and supporting organizations for each group can be found starting on page 86 in Appendices. Language community partners and disability community partners are listed on page 71 in Appendices.

[Voter Education Workshops for Language Communities](#) §4005(a)(10)(l)(i)(VI)(ia)

Following the final publication of the EAP in March 2022, the Registrar's office hosted voter education workshops throughout the county to provide vote center and election information for each of San Diego County's federal and state required languages. The

federally covered languages include Spanish, Filipino, Vietnamese, and Chinese. The state covered languages include Arabic, Japanese, Korean, and Laotian.

The Registrar's office went above and beyond by providing workshops targeting both the Somali and Persian communities of San Diego County.

Each workshop included information about the vote center model, voting equipment overview/demonstration, language assistance services, ballot drop-off options, and methods to request translated election materials. Information about the workshops is listed on the Registrar's website and is shared with the LAAC and language community organizations.

Workshops will continue to be held prior to each election. Future workshops and events can be found here [Community Calendar \(sdvote.com\)](https://sdvote.com).

Methods to Identify Language Communities

§4005(a)(10)(I)(i)(V)

The Registrar's office utilizes the number of voters who request language assistance through voter registration forms. Voters may also notify the Registrar's office of their language preference by telephone, fax, email or online to update their language preference. Sources such as the United States Census Bureau help identify areas where there may be communities that have limited-English proficiency and may need language assistance.

In addition, the Registrar's office receives input from language community partners on the geographic distribution of where language communities exist in San Diego County.

Toll-Free Voter Phone Line and Language Assistance

§4005(a)(10)(I)(vii), §4005(a)(10)(I)(i)(I)

Leading up to Election Day, the Registrar's office operates a call center that is staffed with bilingual operators and utilizes an interpreter call-in service to assist voters (in-language or with disabilities) with questions before, during, and after an election. The toll-free call center number is (800) 696-0136.

The toll-free phone number is published on the Registrar's office website, public service announcements, marketing materials, and provided in media outreach and direct voter contact information including the Voter Information Pamphlet. There is one toll-free number to serve the public, including language communities.

Voters who are deaf, hard of hearing, or speech-disabled may use the California Relay Service (CRS) by dialing 711 to use the telephone system via a text telephone (TTY) or other devices to call the Registrar's Toll-Free Voter Phone Line. CRS supports the following modes of communication: TTY, VCO, 2LVCO, HCO, STS, VASTS, ASCII, or Voice.

[Voter Education Workshop for Disability Community](#)

§4005(a)(10)(I)(i)(VI)(ib)

Following the final publication of the EAP, the Registrar's office hosted voter education workshops to increase accessibility and participation of eligible voters with disabilities. The workshops included education about the vote center model, voting equipment overview/demonstrations, the accessibility of the voting equipment, ballot drop-off information, and options for obtaining an accessible vote-by-mail ballot.

Information about the workshops is listed on the Registrar's website and shared with the VAAC and disability community organizations.

Workshops will continue to be held prior to each election. Future workshops and events can be found here [Community Calendar \(sdvote.com\)](https://sdvote.com).

[Remote Accessible Vote-By-Mail Outreach](#)

§4005(a)(10)(I)(i)(II)

The Registrar's office implemented an outreach plan to inform voters of the availability of RAVBM and will continue to partner with the VAAC to evaluate different strategies to increase awareness and participation among persons with disabilities. Educational material about the RAVBM option is included in the mail ballot packet, voter information pamphlet, and an informational voting options mailer provided to all active registered voters during the election cycle.

In 2022, there were 4,564 voters that voted using the Registrar's RAVBM solution.

[High Schools](#)

The Registrar's office developed strong relationships with local high schools through its Student Poll Worker Program under the previous one-day election model. The program allowed students to participate as poll workers on Election Day and gain hands-on experience in the democratic process. We are currently reestablishing this one-day student poll worker program which will be embedded within the current multi-day election model.

In addition, the Registrar's office will continue to leverage its existing relationships with high schools to provide pre-registration opportunities, voter registration training, and information on how elections are conducted under the vote center model.

Colleges and Universities

There are over twenty colleges and universities in San Diego County. The Registrar's office has built relationships with many colleges and universities through hosting voting locations and mail ballot drop box locations, as well as supporting voter education efforts and voter registration training to student organizations.

The Registrar's office continues its planning efforts with colleges and universities to host a vote center or mail ballot drop box location on campus. Ballot drop box sites on college campuses will increase from three locations, University of California San Diego, San Diego State University, and California State University San Marcos to the goal of providing drop boxes on at least four additional college campuses.

Detention Facilities, Probation, and Parole

The Registrar's office has established relationships with county detention facilities, and the probation department to provide voter registration training, election information, news stories, flyers and posters, updates, and we remain available to answer questions of staff as they assist voters throughout the year.

We also coordinate the receipt of voter registrations, distribution of ballots including conditional voter registration, and the return of ballots for each county detention facility.

We provide volunteer training to outside organizations that have arranged with the Sheriff's department to register individuals at the county detention facilities.

We will continue to work with community organizations and advocates to identify how we can support efforts to inform those on probation or on parole of their rights to register and vote.

The Registrar's office has developed posters with tailored messaging for probation and parole offices and in the recommended communities of Southeast San Diego, National City, City Heights, Barrio Logan, and North County.

Voter Engagement and Community Events

Participating in events throughout San Diego County is an integral part of the Registrar's voter outreach program. Covering a diverse and expansive area, these efforts aim to achieve the following goals:

- Educate voters on the vote center model and voting options

- Provide information and allow opportunity for individuals to register to vote
- Network and pursue collaborative opportunities

As many groups exist within San Diego County, participation in community events allows the Registrar's office to promote services, build partnerships, and interact with various communities. Targeted groups have included, but are not limited, to the following:

- Community groups
- Churches
- Citizenship classes
- Language Groups
- Rotary clubs
- High Schools
- Universities
- Professional associations
- Student organizations
- Public service agencies
- Cultural clubs
- Non-profit organizations
- Youth groups
- Service organizations
- Senior citizen centers

Community Events

To maintain a presence in the community, the Registrar's office will continue to focus its community outreach efforts on small-to-medium and large-scale events. The Registrar's office will be present at these events to register eligible voters and to provide information about the vote center model, voting options, and other election information. Staff will engage the public, answer questions, and assist in filling out voter registration forms.

By participating in these events, the Registrar's office will have access to thousands of individuals in communities throughout San Diego County. A list of potential community events being pursued is available on page 55 in Appendices.

General Media Plan

§4005(a)(10)(I)(i)(I)

To inform San Diego County voters of their voting options, the Registrar's office will take an expansive approach to reach as many voters as possible, multiple times.

Advertising tactics include, but are not limited to, social media, direct mailing, print, broadcast, online video, digital, outdoor posters, transit shelter posters, billboards, streaming audio, and radio. The Registrar's goal is to saturate the spectrum of media outlets for voters to increase the potential for a voter to see informational and marketing materials.

In addition to reaching the general market, the media campaign will feature in-language ads targeting hard to reach communities, low voter turnout areas, underserved populations, and more.

Media Partners

§4005(a)(10)(I)(i)(II), §4005(a)(10)(I)(i)(VIII)

The Registrar's office will provide news stories, video, and social media content for mass distribution and publication to existing media partners and seek out other trusted media sources to relay information. Accessibility options, methods to request an accessible ballot, vote center and ballot drop box locations, other general election information and other voting updates will be shared with media partners. For a list of media partners, please see page 76 in Appendices.

News stories will be posted through the [County News Center](#) which will position information as timely and critical. Stories posted through the County News Center are shared and disseminated to the public through the local media. All stories are translated in Spanish, Filipino, Vietnamese, and Chinese and sent to the appropriate language media outlets.

Additionally, the Registrar often appears on local media to provide up to date information related to the election.

Language Media Partners

§4005(a)(10)(I)(i)(I)

San Diego County's diverse communities receive news updates and information from a variety of sources, including language media outlets. The Registrar's office has dedicated full-time staff to serve as liaisons to language communities and have developed strong relationships with language media partners in communities that speak Spanish, Filipino, Vietnamese, and Chinese. Information on upcoming elections and the

toll-free voter assistance phone line is shared with language media partners. For a list of language media partners, please see page 78 in Appendices.

Direct Voter Contacts

§4005(a)(10)(I)(i)(X)

The Registrar's office sends direct mailings for each election to inform all active registered voters of the availability of the toll-free voter assistance phone line and provide information about the election and their voting options. The mailers may vary in size but will be designed to catch the attention of the voter with Registrar of Voters and County branding and messaging. The mailers may also provide information such as voting options, vote center and ballot drop box locations and hours, and when to expect a Voter Information Pamphlet or official mail ballot packet.

Each mailer will be translated into each of the county's federally covered languages. The English version of the mailer will include messaging in each of the county's federally covered languages describing how a voter can obtain the mailer or other election materials in another language.

The first of the four mailings will go out approximately 99 days before Election Day (E-99) with the final mailing going out just prior to the vote centers opening (around E-22). In addition to the mailings mentioned above, targeted messaging will also be included in the county's Voter Information Pamphlet starting to go out at E-40 and in the official mail ballot packet going out at E-29.

A sample of the first mailer can be found on pages 130-132 in the Appendices.

Postage-Paid Postcard for Requesting Materials in an Alternate Language or an Accessible Format

§4005(a)(8)(B)(iii)

All registered voters will receive a postage-paid postcard in their Voter Information Pamphlet to request a mail ballot in an accessible format and to request election materials in alternate languages per §14201 of the California Elections Code and §203 of the federal Voting Rights Act. Instructions will be included in the pamphlet and on the Registrar's website for completing and returning the postcard.

Public Service Announcements

§4005(a)(10)(I)(i)(VIII), §4005(a)(10)(I)(i)(IX)

The Registrar's office has created visual and audio PSAs in varying lengths and themes to inform voters of upcoming elections (translated in all federally covered languages).

The content is informational as well as instructional such as notifying voters of the upcoming election and options for casting a ballot. Videos and audio promote the toll-free and accessible voter phone line available to ask questions and receive voting and election-related information.

The videos are open-captioned and are in accessible formats to be inclusive of voters who are hard of hearing or deaf and voters who are blind or visually impaired. Additionally, videos will be audio-recorded in Spanish, Filipino, Vietnamese, and Chinese. Content will be provided to general media partners and language media partners. Please see page 76 in Appendices for a list of general media partners and page 78 for language media partners.

Social Media

The Registrar's office uses social media to attract new voters and to provide information to existing voters about the vote center model, critical deadlines, voting options and tips, vote centers and ballot drop box locations.

The Registrar's office utilizes Facebook, Instagram, Twitter, and Nextdoor to promote vote center information and target languages (English, Spanish, Filipino, Vietnamese, and Chinese) and populations in San Diego County such as African American, American Indian, Hispanic/Latino, Filipino, Vietnamese, and Chinese.

Below are social media strategies to achieve the overall goals of informing and educating voters about the vote center model and their voting options:

- Sponsored posts across social media channels that are targeted to users based on location, demographics, user interests, behaviors, and user preferences
- Create a monthly social media calendar that shares important election information including deadlines, voting options, and more
- Place the Registrar's office as the official resource of election information in San Diego County by sharing important election information, breaking down the voting process, providing details on election security, dispelling election misinformation, and responding to voter's most asked questions
- Create eye-catching content including graphics and videos to keep voters engaged and informed

Outdoor Posters, Transit Shelters and Billboards

In addition to traditional and digital advertising, the Registrar's office strategically utilizes neighborhood billboards and large outdoor posters at gas stations, convenience stores, grocery stores, liquor stores, restaurants, and bodegas as well as advertising in transit shelters located in hard-to-reach neighborhoods based on targeted zip code selections

and the Center for Inclusive Democracy mapping tool. Each display features English and a language that is represented in the specific neighborhood.

These tactics allow the Registrar's office to target neighborhoods where other forms of traditional media can't reach.

For a past sample of large poster locations please see page 79 in Appendices. All locations are subject to availability.

Website

§4005(a)(10)(I)(i)(IV)

The Registrar's website, sdvote.com is utilized heavily as the main source of election related information and materials for the public. Information on the website is in accessible formats and is publicly available. This includes the EAP, methods to request an accessible mail ballot, the ability to use an accessible ballot marking device and how to use it, lists of vote centers and ballot drop box locations, and other information related to the VCA.

Materials on the website are also translated into the Registrar's federally covered languages so voters with limited-English proficiency in these languages can access important election information. There is five unique version of the Registrar's website to accommodate the four federally required languages. The Google translate tool is also provided on the website to instantly translate web pages in over 100 other languages.

Budget for Voter Outreach

§4005(a)(10)(I)(i)(VII), §4005(a)(10)(I)(i)(VII)

The transition to the voter center model is a fundamental change for San Diego County voters and will require significant funding for the multiple facets of the Voter Education and Outreach Plan through the 2024 election cycle.

Voter Education and Outreach Funding and Comparison to Past Budgets

<i>The fiscal year runs from July 1 to June 30 of the following year.</i>							
	FY 2019-20	FY 2020-21	FY 2021-22			*FY 2022-23	**FY 2023-24
Activity	<i>Presidential Primary Election</i>	<i>Presidential General Election</i>	<i>Gubernatorial Recall Election</i>	<i>Assembly District 80th Special Primary Election</i>	<i>Gubernatorial Primary Election</i>	<i>Gubernatorial General Election</i>	<i>Presidential Primary Election</i>
Advertising (social media, print, broadcast, video, digital, outdoor posters, audio & radio)	\$34,500	\$703,115	\$650,000		\$647,893	\$187,724	\$650,000

Newspaper Legal Ads (in addition to advertising noted above)	\$84,238	\$62,174	\$45,945	\$1,000	\$9,510	\$13,446	\$50,000
Miscellaneous Advertising (campaign and ad buy management, design, artwork, and video creation)	\$15,552	\$251,493			\$178,821	\$48,506	\$250,000
Miscellaneous Outreach Operations (facilitation, interpreters, and translation services)					\$132,822	\$204,847	\$190,000
Voter Outreach & Education Program (program & staffing costs)	\$1,015,173	\$1,087,491	\$422,580	\$105,645	\$739,514	\$1,202,279	\$1,242,086
	<i>Actuals</i>	<i>Actuals</i>	<i>Actuals</i>	<i>Actuals</i>	<i>Actuals</i>	<i>Actuals</i>	<i>Budget</i>
TOTAL BUDGET (OUTREACH & EDUCATION)	\$1,712,127	\$3,068,334	\$4,930,817			\$3,630,755	\$4,566,321

*FY 2022-23: Funds diverted from advertising to increased voter outreach & education program needs.

**FY 2023-24: Budget may be shifted between activities based on need.

Appendices

Public Meetings

In developing of the EAP, the Registrar’s office hosted well over the minimum number of public meetings in San Diego County to gather input from the public. These meetings gave attendees the opportunity to learn about the county’s transition to the vote center model and provide feedback.

To be inclusive of targeted communities, language assistance was provided at select meetings and particular meetings were promoted to the disability community. Additional public meetings above and beyond what was required by state and federal law were held for Native American and Somali communities.

Targeted Communities	Number of Meetings
Disability Community	4
Seniors	1
Hispanic/Latino	5
Vietnamese	5
Chinese	5
Filipino	6
Japanese	3
Korean	3
Arabic	4
Laotian	1
Additional Communities	Number of Meetings
Native American	2
Somali	1

Public Meeting Schedule

Full schedule of public meetings during the development of the EAP is provided below.

Date & Time	Language	Community Focused	In Person or Virtual?	Location Address
12/9/2021 6 PM to 8 PM	English/Vietnamese	Vietnamese	Both	Mira Mesa Rec Center: 8575 New Salem St, San Diego

Vote Center Layout (Sample)

List of Vote Centers and Ballot Drop Box Locations

The vote center and ballot drop box selection process is ongoing. The final list of locations for an election is posted on the Registrar's website under [Election Information](#) once finalized.

A complete list of locations is also provided in the Voter Information Pamphlet. A voter may also find the nearest vote center or ballot drop box location by using the Registrar's locator map which is also available on the Election Information page during every election cycle.

11-Day Vote Centers

For the November 2022 statewide general election, 39 voter centers were identified as 11-day locations. These vote centers were open Saturday, October 29 through Monday, November 7 from 8:00 a.m. to 5:00 p.m. and on the final day voting, Tuesday, November 8 from 7:00 a.m. to 8:00 p.m.

4-Day Vote Centers

For the November 2022 statewide general election, 179 voter centers were identified as 4-day locations for a total of 218 vote center available across the county for the final 4-days of voting.

The additional 179 locations were open Saturday, 5 through Monday November 7 from 8:00 a.m. to 5:00 p.m. and on the final day voting, Tuesday, November 8 from 7:00 a.m. to 8:00 p.m.

Ballot Drop Box Locations

For the November 2022 statewide general election, 141 Ballot Drop Boxes were distributed across the county. 31 of these locations were secured outside and available to voters 24-hours a day up until 8:00 p.m. on the final day of voting, November 8. The remaining were located indoors and subject to the facilities hours of operation.

All 141 locations were available from 7:00 a.m. to 8:00 p.m. on the final day of voting, November 8.

Suggestions

If you would like to suggest a potential site, you can complete the Site Selection Suggestion Form at [Voter's Choice Act \(sdvote.com\)](#). This form will be available to the public until vote center and ballot drop box locations are finalized.

Lists of Vote Centers and Ballot Drop Box Locations

OVERVIEW

WHAT IS THE VOTER'S CHOICE ACT?

Under the Voter's Choice Act (VCA), you choose **when, where, and how you vote**. Elections are no longer a one-day event and there is no need to wait until Election Day to vote.

Every active registered voter in San Diego County will automatically receive a ballot in the mail nearly a month before Election Day. Once you receive your ballot, you can return it:

- By mail
- At an official Ballot Drop Box location
- At a Vote Center near you

WHY THE CHANGE?

The Voter's Choice Act is designed to make voting more convenient and accessible.

In October 2021, the County of San Diego Board of Supervisors approved the transition to the VCA model.

WHAT IS A VOTE CENTER?

Vote Centers replace polling places and provide more services to voters. You can vote in person at any Vote Center in San Diego County.

Some Vote Centers will be open 11 days, including Election Day, and all Vote Centers will be open 4 days, including Election Day.

VOTING OPTIONS

MAIL

- Sign and date your return envelope, seal your ballot inside, and return it through the U.S. Postal Service – no stamp needed!
- Remember to sign your return envelope! Your signature is required for your mail ballot to count.

BALLOT DROP BOX

- Sign and date your return envelope, seal your ballot inside, and return it to any official ballot drop box location or Vote Center.

VOTE CENTER

- Vote in person at any Vote Center in San Diego County.
- **Some** Vote Centers will be open 11 days, including Election Day. **All** Vote Centers will be open 4 days, including Election Day.
- Other services available at Vote Centers:
 - Vote using an accessible ballot marking device
 - Receive voting assistance, including assistance in multiple languages
 - Register to vote or update your registration and vote on the same day
 - If you made a mistake or lost your mail ballot, you can instead vote at any Vote Center

A list of Ballot Drop Box and Vote Center locations will be available at sdvote.com

LANGUAGE ASSISTANCE

To receive election materials in Spanish, Filipino, Chinese, or Vietnamese, please call **(858) 565-5800** or toll free **(800) 696-0136**.

ACCESSIBLE VOTING

The Registrar of Voters is committed to providing voters with disabilities the resources to vote privately and independently.

To request voting materials in an accessible format please call **(858) 565-5800** or toll free **(800) 696-0136**.

HAVE SUGGESTIONS FOR VOTE CENTER LOCATIONS?

Please contact Precinct Services at VoteCenters@sdcounty.ca.gov or **(858) 505-7389**.

BE VOTE READY!

Make sure your voter registration is up to date so you can receive your voting materials in a timely manner.

Recently moved or changed your name?

You will need to re-register to vote by completing a new voter registration.

Not registered to vote or not sure?

Scan the QR code with your smartphone to register to vote or check your voter registration status.

ELECTIONS

Registrar Holding Meetings for Input on County's Election Administration Plan

A staff member with the Registrar of Voters demonstrates how to vote on a ballot marking device.

By **Tracy DeFore**, County of San Diego Communications Office
Dec. 8, 2021 | 2:53 PM

The Registrar of Voters office is holding a series of consultation meetings inviting the public to have a say in creating the County's new Election Administration Plan.

The meetings begin Thursday and continue through January. The plan describes how the Registrar's office will administer elections under the Voter's Choice Act. The public can give input on where to locate vote centers and ballot drop boxes. Attendees can also give feedback on voter education and outreach plans.

The Registrar's office is creating the plan because the Board of Supervisors approved the transition to the vote center model on Oct. 19.

The vote center model falls under the **Voter's Choice Act**, and it modernizes the election process in several ways.

Active registered voters automatically receive a ballot in the mail. In-person voting moves from traditional polling places to vote centers. And voters have the option to return their ballot by mail, a secure ballot drop box, or vote in person at any vote center. All the vote centers are open for four days and some up to 11 days, giving voters more time to return their ballot for Election Day.

The concept isn't entirely new to local voters. Due to the COVID-19 pandemic, the Registrar of Voters used a similar voting model for the November 2020 presidential general and September 2021 gubernatorial recall elections.

PUBLIC NOTICE ELECTION ADMINISTRATION PLAN RENEWAL

Notice is hereby given that the updated Election Administration Plan is posted on the Registrar of Voters website at [Voter's Choice Act \(sdvote.com\)](http://Voter's Choice Act (sdvote.com)). The updated Plan is available in English, Arabic, Chinese, Filipino, Japanese, Korean, Laotian, Persian, Somali, Spanish, and Vietnamese in accordance with state and federal law.

The last day to provide comments on the updated Plan is Wednesday, July 26.

Notice is further given that on Wednesday, August 9, 2023, the Amended Election Administration Plan will be posted on the Registrar of Voter's website at [Voter's Choice Act \(sdvote.com\)](http://Voter's Choice Act (sdvote.com)). The Amended Plan will be available in English and will be translated into Arabic, Chinese, Filipino, Japanese, Korean, Laotian, Persian, Somali, Spanish, and Vietnamese in accordance with state and federal law.

The 14-day public comment period for the Amended Election Administration Plan will end Wednesday, August 23, 2023 at 5 p.m.

Comments on the Plan may be submitted using the online comment forms on the Registrar's website at [Voter's Choice Act \(sdvote.com\)](http://Voter's Choice Act (sdvote.com)), by email to rovmail@sdcounty.ca.gov, in writing, or at one of the July 26 public hearings. Written comments should be addressed to the San Diego County Registrar of Voters, 5600 Overland Ave., San Diego, CA 92123.

For more information regarding the Election Administration Plan, please call (858) 565-5800, toll free at (800) 696-0136, or visit [Voter's Choice Act \(sdvote.com\)](http://Voter's Choice Act (sdvote.com)).

Dated this 12th day of July 2023.

PUBLIC NOTICE

Notice is hereby given that Public Hearings for the updated Election Administration Plan pursuant to the Voter's Choice Act will be held on Wednesday, July 26, 2023. The upcoming public hearings will be held virtually and in-person. The public is encouraged to join virtually in order to provide sufficient space in the room for those who need to participate in-person.

Notice is further given that the updated Election Administration Plan is posted on the Registrar of Voter's website at [Voter's Choice Act \(sdvote.com\)](http://Voter's Choice Act (sdvote.com)). The plan is available in English and is translated into the state and federally covered languages in accordance with the law and county policy.

Federally Covered Languages

Spanish Filipino Vietnamese Chinese

State Covered Languages

Arabic Japanese Korean Laotian

County of San Diego Board Policy Covered Language

Persian Somali

Comments on the plan may be submitted using the online comment form on the Registrar's website at [Voter's Choice Act \(sdvote.com\)](http://Voter's Choice Act (sdvote.com)), by email to rovmail@sdcounty.ca.gov, in writing, or at the public hearings. Written comments should be addressed to the San Diego County Registrar of Voters, 5600 Overland Ave., San Diego, CA 92123.

Meeting Date: Wednesday, July 26, 2023

Morning Meeting Time: 9:00 a.m. to 11:00 a.m. (in-person & virtual via Zoom)
County Operations Center – Chamber Room
5520 Overland Ave.
San Diego, CA 92123

Evening Meeting Time: 5:30 p.m. to 7:30 p.m. (virtual only via Zoom)

Zoom webinar information will be available soon at sdvote.com under [Voter's Choice Act \(sdvote.com\)](http://Voter's Choice Act (sdvote.com)) and on the [Community Calendar \(sdvote.com\)](http://Community Calendar (sdvote.com)).

For more information regarding the Public Hearing, please call (858) 565-5800, toll free at (800) 696-0136, or visit [Voter's Choice Act \(sdvote.com\)](http://Voter's Choice Act (sdvote.com)).

For disability or language accommodations, please call (858) 565-5800, toll free (800) 696-0136 or email rovmail@sdcounty.ca.gov at least five business days in advance of the hearing. The Registrar's office will do its best to fulfill requests received with less notice.

Dated this 14th day of July 2023.

California's Statewide General Election is November 8, 2022. Know your voting options.

Vote By Mail

EVERY active registered voter will automatically receive a ballot in the mail. Ballots will begin to go out on **October 8, 2022**. You should expect to receive yours that same week.

Sign and date your return envelope, seal your completed ballot inside, and return it through the U.S. Postal Service. Remember to sign your return envelope!

Your signature is required for your vote to count.

You can track your mail ballot envelope as it moves through the U.S. Postal Service by signing up for **Where's My Ballot?** at sdvote.com.

Ballot Drop Box

Return your mail ballot to any of the Registrar of Voter's secure ballot drop box locations.

Drop box locations will open October 10, 2022. Visit sdvote.com for hours of operation before heading out with your ballot.

Vote Centers

Vote Centers replace polling places. You can vote in person at any Vote Center in San Diego County. Services include:

- Vote in person or drop off your voted mail ballot
- Register to vote or update your registration
- Receive voting assistance in multiple languages

SELECT Vote Centers will be open 11 days, including Election Day and **ALL** Vote Centers will be open 4 days, including Election Day. **The first Vote Centers will open October 29, 2022.** Avoid lines by voting early!

A complete list of Ballot Drop Box and Vote Center locations will be available at sdvote.com on September 9, 2022.

Accessible Voting

The Registrar of Voters is committed to providing voters with disabilities the resources to vote privately and independently at all Vote Centers or by voting in the comfort of their homes using the Remote Accessible Vote By Mail (RAVBM) system.

For more information, call (858) 565-5800, toll-free (800) 696-0136, or visit sdvote.com. You may also request to receive your election materials in Spanish, Filipino, Vietnamese, or Chinese.

Para más información, llame al (858) 565-5800, sin costo alguno al (800) 696-0136, o visite sdvote.com. También puede solicitar recibir sus materiales electorales en español, filipino, vietnamita o chino.

Para sa higit pang impormasyon, tumawag sa (858) 565-5800, toll free sa (800) 696-0136, o bisitahin ang sdvote.com. Maaari rin kayong humiling upang makatanggap ng inyong materyales sa eleksyon sa Spanish, Filipino, Vietnamese, o Chinese.

Để biết thêm thông tin, xin gọi (858) 565-5800, điện thoại miễn phí (800) 696-0136, hay truy cập sdvote.com. Quý vị cũng có thể yêu cầu nhận tài liệu bầu cử của mình bằng tiếng Tây Ban Nha, Phi Luật Tân, Việt Nam, hay Trung Hoa.

如需更多資訊，請致電 (858) 565-5800、(800) 696-0136 (免付費電話) 或瀏覽 sdvote.com。您亦可要求收取西班牙文、菲律賓文、越南文或中文的選舉資料。

COVID-19 Protocols

The Registrar of Voter's office has established protocols in place to ensure the health and safety of election workers, voters and observers to our office, vote centers and mail ballot drop-box locations. The Registrar's office will continue to follow the County's public health guidance and orders that are in place at the time of the election and voting period.

- Masks and gloves are available for all visitors, election workers, and poll workers
- Hand sanitizer readily available
- Regular cleaning and disinfecting of frequently touched objects and surfaces

These protocols will continue to evolve depending on the most current public health guidance.

Prohibited Activities

The Registrar’s office works collaboratively with local law enforcement agencies to ensure Ballot Drop Box and Vote Center locations are secure and that voters can cast their ballot free from interference or intimidation. This messaging is also incorporated into the Registrar’s social media campaign.

Voters are asked to report any concerns to Voter Center staff. The Registrar’s office trains its staff on what prohibited activities to look out for and what steps to take.

Sample Flyer

The following is **prohibited** pursuant to the California Elections Code.

 <p>Intimidation of Voters CA Elections Code §18540</p>	 <p>Tampering with Voting System CA Elections Code §18564</p>	 <p>Falsely Acting as Elections Officials CA Elections Code §18575</p>	 <p>Unauthorized Uniformed Personnel CA Elections Code §18544</p>

REPORT SUSPICIOUS BEHAVIOR TO THE REGISTRAR'S OFFICE (858) 565-5800, OR TO THE SAN DIEGO LAW ENFORCEMENT COORDINATION CENTER (858) 495-7200 OR WWW.SD-LECC.ORG

IF AN EMERGENCY, CALL 9-1-1

Your Safety Is Always Our Priority

As in all elections, the Registrar of Voters works collaboratively with local law enforcement agencies to ensure Ballot Drop Box and Vote Center locations are secure and that individuals are not interfering or suppressing voters from casting their ballot. If you see something suspicious, **contact 9-1-1 for an emergency** or call your local law enforcement agency's non-emergency line.

Special Election Provisions

§4005(b)

The VCA establishes additional criteria for counties to follow when conducting a special election.

Every active registered voter residing in the district will receive a ballot in the mail.

Election Administration Plan

§4005(b)(1)(B)

The Registrar's Election Administration Plan was approved by the California Secretary of State's office and adopted by the Registrar's office on March 16, 2022.

Vote Center and Ballot Drop Box Locations – Special Elections

§4005(b)(2) through §4005(b)(4)

The VCA has established a formula for determining the number of vote center and ballot drop box locations for special elections.

Counties are instructed to provide one 11-day vote center for every 60,000 registered voters and on the day of the special election provide one vote center for every 30,000 registered voters.

Counties must also provide at least one ballot drop box location within the jurisdiction where the special election is held or at least one ballot drop box location for every 15,000 registered voters.

Pages 13 through 24 of this plan provide more detail related to the criteria used for placement and location of vote centers and ballot drop boxes.

The county's first special election conducted under the VCA was the April 5, 2022, California State Assembly District 80 Special Primary Election.

April 5, 2022, California State Assembly District 80 Special Primary Election

The Registrar's office identified vote centers and ballot drop box locations within the district. The final lists of selected vote centers and ballot drop box locations were included in the Voter Information Pamphlet and they were available on the Election Information page of the Registrar's website.

Starting ten days before the day of the special election, five vote centers were opened daily from 8:00 a.m. to 5:00 p.m. through Monday, April 4. On the final day of voting,

Tuesday, April 5, an additional four vote centers opened for a total of nine vote centers. On the final day of voting the hours changed to 7:00 a.m. to 8:00 p.m.

The Registrar’s office provided 17 ballot drop box locations throughout the district and an additional 4 locations just outside the district for added convenience. All ballot drop box locations were open during regular business hours and on the final day of voting, Tuesday, April 5 all locations were available from 7:00 a.m. to 8:00 p.m.
